

Marneuli is a municipality and city located in southeastern Georgia, within the Kvemo Kartli region. It lies approximately 35 kilometers southeast of the capital, Tbilisi, and serves as an important transportation hub due to its proximity to the borders of Georgia, Azerbaijan, and Armenia.

Marneuli stands out for its exceptional ethnic and cultural diversity. The region is home to:

- Azerbaijanis (the majority population)
- Georgians
- Armenians
- Russians and other ethnic groups

This multiculturalism creates a unique social and cultural environment where different traditions, languages, and religions coexist harmoniously.

The region has schools, preschools, vocational colleges, healthcare facilities, and more.

The regions challenges and opportunities include:

- The need to create new jobs
- Further development of infrastructure
- Accessibility of education and vocational training
- Strategic geographic location
- Multicultural environment and local potential
- Prospects for agricultural and trade development
- Demand for vocational training among young people

Marneuli is known for its rich cultural heritage, blending:

- The traditions of various ethnic groups

- Religious tolerance (mosques, churches)
- Local cuisine and art
- Folklore and national festivals

The city is actively developing, with special focus on:

- Youth education and vocational training
- Promoting economic development
- Improving infrastructure
- Strengthening multicultural coexistence

LLC Marneuli Public College

LLC Marneuli Public College is a vocational education institution located in the Marneuli region.

Our mission is to implement diverse vocational and short-term educational programs in the Kvemo Kartli region that meet modern labor market demands, ensure access to vocational education for all interested individuals, promote lifelong learning and employment opportunities, and contribute to the civic integration of the regions population.

Our vision:

By 2031, the college will be the leading educational institution in the Kvemo Kartli region, recognized for high academic achievements of its students, innovative teaching, successful employment outcomes, and a positive impact on society.

Core Values:

- Professionalism: The college succeeds when its team consists of professionals.
- Teamwork: Essential for achieving success, improving work processes, and fostering a pleasant

work environment.

- Equality: Equal opportunities for study, teaching, and professional growth are guaranteed for administrators, teachers, and students alike.
- Transparency and Openness: All college processes are transparent and open to collaboration.
- Development-Oriented: The college continuously seeks to identify and address its weaknesses.
- Tolerance: The college doors are open to people with different worldviews, lifestyles, behaviors, and customs.

We offer four comprehensive vocational programs, designed to meet the modern labor market needs:

1. Nursing Education Prepares competent healthcare professionals equipped with both theoretical knowledge and practical clinical skills. Graduates are ready to work in various healthcare institutions and meet the growing demand for qualified medical personnel in the region.
2. Early Childhood Education (Preschool Teacher) Trains dedicated educators who understand child development and modern pedagogical approaches. Graduates play an important role in laying the foundation for early childhood education in preschools.
3. Financial Services Students gain essential skills in banking and related services. The curriculum prepares them for various roles in Georgias growing financial sector.
4. Information Technology (IT) Equips students with modern technical skills, programming knowledge, and digital competencies needed in todays technology-driven economy.

Marneuli Public College is committed to providing accessible, high-quality vocational education that equips students with practical skills and professional competencies. We connect education with

employment, supporting the socio-economic development of both the Marneuli region and Georgia as a whole.

Founded in 2019, the college has successfully passed the authorization process twice. It is equipped with modern infrastructure and currently has 448 graduates, of whom 65% are successfully employed. The college currently trains around 900 students across various professions.

In the future, the college plans to expand by introducing new, in-demand vocational programs, as well as training and retraining courses tailored to the labor market.
